Airship is Coming

Capt. Foster and His Aeroplane
Will Be Here With Yankee
Robinson Shows

You have been reading for a year about airships and aeroplanes. You have read of where Wilbur Wright has sold the aeroplane rights to the armies of France, Germany and Russia. The airship now being a certainty and practicable, it was up to some up-to-date circus to carry one for this season and demonstrate it to the public. Yankee Robinson Shows, at an enormous expense, has secured the identical ship that made the circle of the Eiffel Tower in Paris and will exhibit this machine and its workings before the people who congregate in this city on the day of exhibition. This will be one of the greatest sights you have ever witnessed in your life and it may be many years before you see another equally as great. Prof. Foster, who has charge of the airship, made every portion of the ship with the exception of the engines which propel it through the air. No condition of weather will deter the professor from making his demonstration on day of exhibition.

Mayer--Mensing

On Tuesday afternoon Miss Elsie Mensing of this city and Rev. Frederick Mayer of Logan, Kansas, were united in marriage at the German Lutheran church. Rev. Budenhagen was the officiating clergyman. The church was well filled with relatives and friends who witnessed the ceremony. The bride was prettily and daintily gowned in pale blue silk and wore a bridal veil of white tulle. Miss Mensing now Mrs. Mayer is a charming young woman and her sweet face betokens a sweet disposition. She has a number of warm friends who regret that she will not make her home among them. Mr. Mayer is a young clergyman and a very pleasant affable gentleman. An elegant wedding supper was served at the home of the bride's parents. Wednesday morning the young couple left for Logan, Kans., where they will make their home. The good wishes of the World follows them and wishing them much joy and happiness.

The Wisest

Housewife

Is she who devotes the most care to the selection of the supplies for the table. She recognizes that in this particular she is the custodian of the health of the family. She sees to it that all doubt about quality is removed.

In short, she enforces a pure food law of her own framing. This explains why so many wise housewives have got into the habit of depending upon this store.
